

Goals for Family Involvement

Clarify goals for family involvement. Work with staff to develop short and longer-term goals, and ensure that all work as a team to achieve them.

Check all that apply, then develop your own in more detail specific to your program.

Our program will improve family involvement efforts to:

- ☐ Ensure all families feel welcome and that the program encourages their continued involvement in any way possible
- ☐ Help families gain access to the organizations, people, and resources they need to support their children and themselves
- ☐ Find innovative and differentiated ways to involve families that utilize their skills and address their concerns
- ☐ Help families find additional ways to be involved in their children's lives and support their healthy development
- ☐ Support better student behavior and academic performance in school and the program
- ☐ _____
- ☐ _____
